

## **Observer (Parent) Accounts in Canvas**

## **Get A Pairing Code From Your Student's Account**

Before you can create your observer (parent) account in Canvas to see what your student sees, you will need to have them generate a pairing code from their student account. Follow the steps below to generate the pairing code.

- First, make sure your student is logged into their Canvas account. Then, have them click on their Account button in the left sidebar.
- 2. In the menu that pops out to the right, click on Settings.

- **3.** On the far right side of the screen, click Pair with Observer.
- Write down and save the code that appears in the pop up window. You will need it to link your observer (parent) account to your student's account.
